

## Proposal for a USC Sustainability Strategy 2030

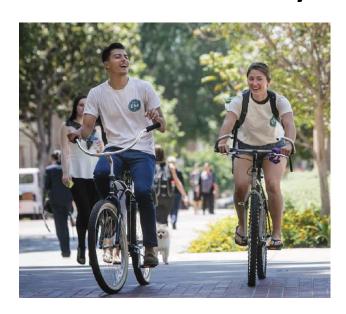

# Darren Ruddell Academic Senate Sustainability Committee University of Southern California 22 March 2017

#### Motivation

 To inspire and bring together the many constituencies of the University to take up the challenge of adopting an imaginative and leading-edge long-term strategy for a sustainable university

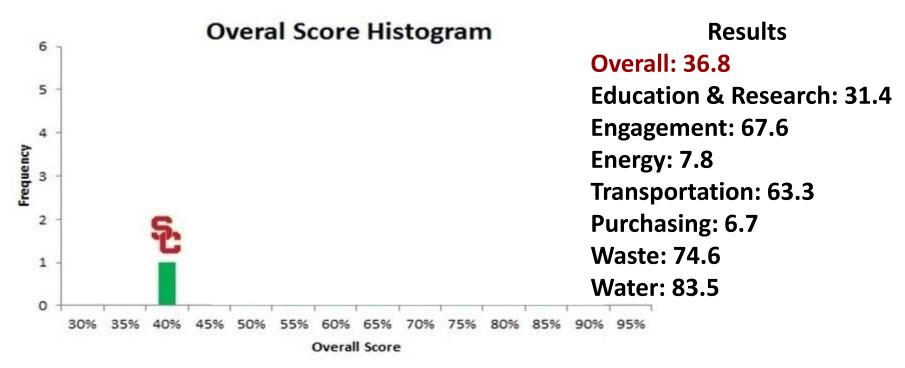

#### **Sustainability Self Assessment**

 Association for the Advancement of Sustainability in Higher Education (AASHE) STARS Assessment of USC in 2012

#### **Sustainability 2020 Plan**

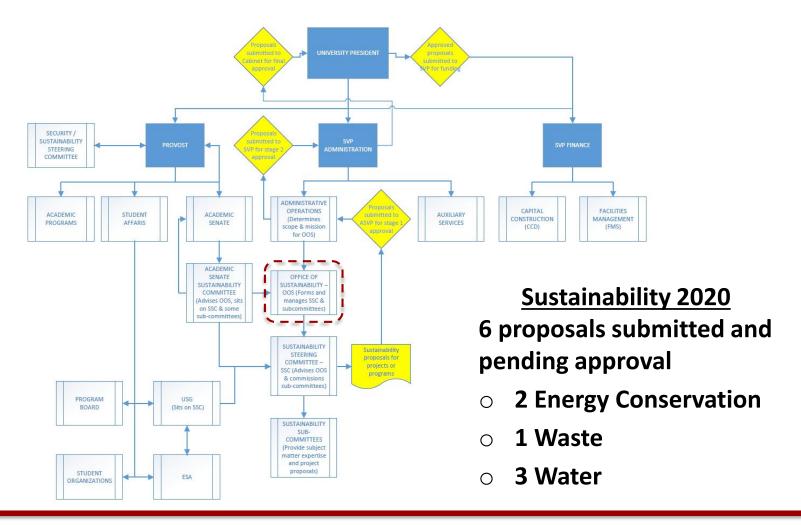

- Endorsed by the University in late 2015
  - Comprised of 17 goals across 7 domains (AASHE)
    - Education & Research
    - Community Engagement
    - Energy Conservation
    - Transportation
    - Procurement
    - Waste
    - Water

USC Office of Sustainability leads efforts to achieve goals

#### Sustainability Efforts Currently Dispersed

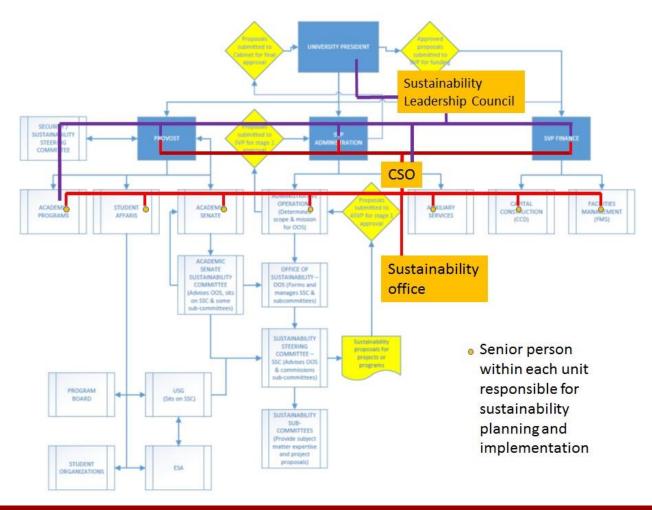

#### **Sustainability Strategy 2030**

- A bigger, bolder, more ambitious, longer-term, and integrated sustainability agenda for USC
  - Education & Research: international leader in sustainability
  - Community Engagement: develop and lead strategic partnerships to promote sustainability
  - Energy Conservation: achieve carbon neutrality
  - Transportation: 50% reduction in carbon footprint\*
  - Procurement: pursue sustainable supply chain operations
  - Waste: achieve 90% waste diversion\*
  - Water: reduce potable water use by 50%\*

### Sustainability Leadership Council

College of Letters, Arts and Sciences

#### **USC's Vision and Sustainability**

- USC's 2011 Vision and Proposed 2030 Sustainability Vision
  - Transform Education for a Rapidly Changing World
    - Become a leader in building disciplinary and interdisciplinary programs to address complex environmental challenges
  - Create Scholarship with Consequence
    - Develop scientific, engineering, and policy expertise in environmental sustainability
  - Connect the Individual to the World
    - Position our institution, students, and faculty as global leaders in sustainability

#### **A Cost Savings Strategy**

- Operations and Infrastructure benefits of sustainability efforts
  - University of Summer Construction
    - Summer 2016: 150+ projects
  - USC University Village
    - \$700 million residential and retail complex
    - 2,700 student beds
    - Opens Fall 2017

#### **Next Steps**

- Sustainability Committee's Ask:
  - Academic Senate review, discuss, and hopefully endorse the Sustainability 2030 Strategy
  - With Senate support, the Sustainability 2030 Strategy will be shared with:
    - The Provost
    - The Provost's Task Force on Enhancing Security and Sustainability
    - The USC Staff Assembly
    - The USC Undergraduate Student Government
