27 **AGENDA**

28
29 **Call to order: Margo K. Apostolos, Senate President - 2:05**

30 Academic Senate President Apostolos called the meeting to order at 2:05pm.

31 Nov 15 meeting will be held at Health Science Campus, Soto Building, 1845 N Soto, SSB
32 115/116, Los Angeles, CA 90043. Parking will be provided

33
34 **Approval of the 9/20/23 Meeting Minutes; Christal Young, Secretary General**

35 Tabled to the November meeting

36
37 **Discussion with Provost Andrew Guzman**

38 Provost Guzman commented on the events in Gaza. He shared that everything that's happened
39 has had a big impact on many people in our community in ways that we're not conscious or
40 aware of. He stated "It's important that you take care of yourselves and give yourselves some
41 grace as you go through this process." He went on to note that "There are [people] both

42 informally in your colleagues and others, and formally through our structures of support that
43 are available” to utilize as necessary.

44
45 President Folt has put out 3 statements regarding the conflict in Gaza. Spending a lot of time
46 on this. They are doing everything they can to ensure that there’s safety on our campus. This
47 applies to students, staff, and faculty. There are many people engaging in ways to connect with
48 student groups. Department of Student Life. Dean of Religious Life, Varun Soni, has strong
49 relationships with religious leaders across the world. It is not true that the interests of
50 Palestinians and Muslims are aligned on these issues. There is an overwhelming instinct to
51 behave responsibly and behave collegial with one another. Open dialogue helps us to do that
52 successfully.

53
54 Examples of cooperative dialogue during events:

- 55 - On Monday night, there was a vigil by Tommy Trojan for people who have lost their lives
56 over the attack. There was a counter-silent protest occurring nearby. They did not
57 disrupt the vigil.
- 58 - Tuesday, there was a march in support of Helstein. In both cases, there was
59 communication and awareness with and among leadership.

60
61 DPS was present at all events. Provost Guzman shared “We can’t control events but we can
62 control what happens on our campus.”

63
64 Provost Guzman encouraged the faculty to recognize those realities, be flexible and
65 understanding of students as many of them are experiencing these events for the first time in
66 their lives. Additionally, he recognized that we live in a diverse world and no one will agree on
67 everything. With that said, he asked faculty to behave in a responsible way and find ways to
68 respect those around us and be an example to students of how to engage in discussions around
69 this issue.

70 71 **LibKey Presentation**

72 Acting Head of Leavey Library and Associate Professor Christal Young gave a [presentation](#) on
73 LibKey Nomad, a browser extension available through USC Libraries to provide single click
74 access to library content directly from publisher websites. Senators who have already begun to
75 use this service spoke about the ease of use and usefulness in their research.

76 77 **Academic Senate Talks**

78 President Apostolos shared that the Academic Senate plans to take the work from the retreat
79 and bring it to a larger audience. The first Joint Academic Senate/Provost talk will be “Free
80 Speech and Academic Freedom” on Nov. 29th at 1pm in DML 121 with a Zoom option. The full
81 slate of talks will be shared at the November meeting.

82 83 **Presentation from the USC Office of Sustainability**

84 Mick Dalrymple, Chief Sustainability Officer, and Jill Sohm, Director, Environmental Studies

85 Program, presented on Assignment: Earth, USC's branded sustainability framework. They
86 explained that USC hasn't created a separate silo for sustainability, rather it is woven through
87 everything. There are 27 goals that range from engagement, DEIB, education, research,
88 operation. It is a key presidential priority. If any faculty are interested in incorporating these
89 efforts into their research or teaching, there are a number of tools and resources available
90 including research seed grants, workshops, and learning communities.

109

110 D2L (Company) Brightspace (Product). A demonstration of the Brightspace platform was
111 presented. A larger presentation to all faculty will be available at a later date.

112

113 This is an integration into our ecosystem, it is a migration project, and a training and
114 communication project. Data will be collected during the pilot timeline in order to refine and
115 improve issues.

116 A Senator asked if ITS will be migrating our courses directly from Blackboard — including links
117 and YouTube videos — to Brightspace or will faculty have to do the migration themselves? -
118 *D2L will be migrating 3 years of content. What will not be migrated is the student data.* There
119 was conversation around what our archiving approach will be if a professor needs to access a
120 course from 4 years ago.

121 A Senator asked about students taking an incomplete this semester. - *Students have one year to*
122 *complete an incomplete. All data will be in the archive. The committee will look into*
123 *considerations for this population.*

124 AI integration within the program will serve as a help assistant within the platform. AI is a
125 starting point for getting help.

126 Students participating in the pilot will receive training in January. TA training will come later as
127 many TA's are not assigned to a course until later.

Discussion with DPS Chief Laretta Hill

Chief Hill gave an introduction of herself and her background and spoke on the Safety Vision for the University as well as the Community Advisory Board. Chief Hill wants to make sure that the department is integrated in the campus culture.

Q&A

A senator asked about how DPS plans to further address people experiencing homelessness. - *DPS works closely with the city and utilizes city services to clean up a particular area.*

A Senator asked how safe are we compared to similar institutions? - *We are relatively safe. Our biggest crime is scooter and bicycle theft. The violent crime that creates fear is not occurring at USC.*

President Apostolos asked how can we, as a faculty, encourage safety around campus? - *If you see something, say something. Safety is a shared responsibility of the entire campus community.*

President's Working Group

President Apostolos petitioned for recommendations from Faculty Council Chairs for names for a President's Working Group. If you have a name to suggest, please contact President Apostolos directly.

The next Academic Senate Meeting will take place on Wednesday, November 15th on Health Science Campus.

Adjournment

President Apostolos adjourned the meeting at 4:02pm.

Respectfully submitted,

Christal Young

Secretary General of the Academic Senate
